SERVICE ISSUE RTU suite 31 down

DATE	DESCRIPTION		AMOUNT
4/6/2026	Work Performed: Gas valve is bad. Not opening all the way. Arrived on site to install a new gas valve. Upon arrival, gained roof access and removed the faulty gas valve. Installed the replacement valve. After installing tested unit. Found that the unit has a cracked heat exchanger now that the heating is working. Will need to replace heat exchanger but would suggest replacing the RTU based on the age and condition of the unit.	$	900.00
4/6/2026	Material: Gas valve	$	432.00
4/6/2026	Travel	$	200.00

BALANCE DUE **$ 1,532.00**

REMIT PAYMENT TO 650 NUTTMAN ST, STE 113, SANTA CLARA, CA 95054
